

LDMS Nest Box Monitoring: May 11, 2015

LDMS Box #1: 5 eggs at 1:15 and this hatchling observed coming out of the egg at 2:15

LDMS Box #2: The Carpenter Bee continues to buzz at us when we monitor the box. No birds observed.

LDMS Box #3: No nesting activity observed.

LDMS Box #4: A single pale pink/white egg from a tree swallow laid today!

LDMS Box #5: The House Wren nest continues to be attended to by both male/female wrens though it remains unfinished to date.

LDMS Box #6: No nesting activity observed yet

LDMS Nest Box Monitoring: May 8, 2015

LDMS Box #1: Eastern Bluebird eggs still incubating

LDMS Box #2: The bee remains consistently in Box 2 buzzing away when disturbed.

LDMS Box #3: Box 3 remains empty in the courtyard for some reason.

LDMS Box #4: Tree swallows have finished lining their nest with their characteristic feather lining.

LDMS Box #5: The House Wren continues to construct a stick nest but no lining yet in the box.

LDMS Box #6: Box 6 remains empty perhaps due to the number of kids playing nearby consistently.
